

Parni topionik voska elektro 220 + gorionik za plin - četvrtasti

Napravljen je od INOX-a 304. Debljina 1mm

Ima dva grejača od 3kW, monofazni.

Sastoji se od kućišta, cedila i poklopca.

U jedan ciklus staje oko 15 DB ramova, ili oko 15 LR ramova.

Prilikom korišćenja dodatni sud ne sme da bude bez vode jer u tom slučaju postoji mogućnost od pregorevanja grejača.

Steam wax melter 220 electric + gas burner - square

Made from stainless steel – INOX 304. Thickness 1mm.

Has two heaters with power 3kW, monophas.

It consist of the housing, strainer and lid.

In one cycle, fits around 15 DB frames, or 15 frames LR.

When using, the extra dish should not be without the water because in this case there is big possibility of burning out the heater.
